rdcoils

The Fourier harmonics of the coils are read from file.

[called by: notopt.]

contents

1.1 overview

1. The initial currents and geometries of the coil currents are read from `.fo.coil.xxx`.

2. The format of these files will be described in more detail upon request.

1.2 initializing coils

If suitable coils are not pre-determined, then various options for automatically constructing a suitable coil arrangement are available:

1. `Linitialize` = 1:
